Outlook for the Blind

A QUARTERLY RECORD
OF THE PROGRESS AND
WELFARE OF THE BLIND

Index

VOLUME V

I follow with keen interest your efforts to make the "Outlook for the Blind" a success. Nothing is more useful to the sightless than an intelligent magazine in their interest, setting forth their needs, making known what they can do to earn a living, and advocating movements of the right sort in their behalf. The "Outlook for the Blind" is just such a publication. The fact that influential and wise persons who have the welfare of the blind at heart favor the magazine makes it all the more valuable. It deserves liberal support from philanthropists and practical workers for humanity.

Helen Keller
